Planned network outage:
Saturday March 29, about 10AM - 6PM

All EECS computers will be inaccessible during scheduled maintenance to the EECS networks. Users on our systems would experience interruptions and possible loss of data. Email that is sent to our mail server (imail.eecs) during that time will be queued by the sender for later delivery. We’ll post updates on http://inst.eecs.berkeley.edu
Also see http://iris.eecs.berkeley.edu.
